

Windes Technology & Risk Services brings comprehensive expertise in areas such as PCI DSS, HIPAA, ISO 27001, SOC reporting, virtual CISO services, security awareness training, penetration testing, incident response planning, and advanced advisory analytics. By centralizing technology and risk expertise under one roof, we deliver integrated, actionable solutions designed to help businesses build resilience, meet compliance standards, and extract value from data. Windes offers a comprehensive menu of Technology & Risk services to ensure your business is prepared and protected from cyber threats.

STRENGTHS OF OUR TECHNOLOGY & RISK PRACTICE

Our Technology & Risk Practice utilizes 30+ years of experience auditing clients for cyber, data, and regulatory risk without slowing the business. We bring deep fluency in frameworks like NIST, COBIT, and ISO; hands-on support for SOX/SOC readiness; privacy compliance (GDPR/CCPA); cloud and AI risk; third-party/vendor risk; and business continuity.

What sets us apart is our execution: clear roadmaps, actionable deliverables, and templates that accelerate results while reducing the cost of compliance. We work seamlessly with assurance and tax teams to align controls with financial reporting, provide board-ready reporting that builds stakeholder trust, and transfer knowledge so your team gets stronger with every engagement.
